NO. 114/14 JUNE 2014

INDONESIA - SGS IS AN APPROVED LABORATORY TO PERFORM SAMPLING & TESTING FOR IMPORTED & LOCALLY MANUFACTURED BABY'S GARMENTS

The Indonesian government has introduced Decree of Minister of Industry No. 07/M-IND/PER/2/2014 in relation to the Indonesian National Standard (SNI) certification programme for a range of baby garments for children under the age of 36 months old. Any baby garments that are imported into Indonesia or manufactured domestically for the Indonesian market after 17 May 2014 are subject to these requirements.

As part of the SNI certification procedure, baby clothing within the scope of this regulation is required to be sampled by qualified sampling officers (PPC) and tested at an approved laboratory to ensure conformance to SNI 7617:2013. In case of non-Indonesian made products, the certification procedure must be completed prior to the pre-shipment inspection, which is a government mandated import requirement applicable to most commodities shipped into Indonesia.

NO.	TYPE OF PRODUCTS	HS CODE
GARMENT & ACCESSORIES FOR BABIES		
1	-Made of cotton	6111.20.00.00
