## ARE YOU MEETING BUYERS REQUIREMENT ? SGS SEMINARS ROLL OUT SOCIAL RESPONSIBILITY FOR YOUR BUSINESS

With the increasing popularity of "sustainable development", "Social responsibility" has become a primary factor in procurement chain for buyers in domestic and overseas trade. Besides a series of social standards which are required by the international organizations, many EU & US brands also established their own codes and policies. Suppliers are also required to follow consistently with those codes. What is more is that buyers will authorize Third-party audit to evaluate suppliers' fulfillment.

So have you met buyers' requirement? Are the codes update to you? From Oct to Dec, 2012, SGS [Social Responsibility Solutions](http://www.socialresponsibility.sgs.com) will hold 5 free seminars in Shenzhen, helping you to understand BSCI code and SMETA update, interpreting law requirements of the environment, the management of hazardous chemicals and more. We cordially invite you to join us and share your knowledge with our speakers.
